

We, the undersigned wish to acknowledge the great progress Scotch Plains has enjoyed in recent years establishing new ball fields and renovating existing ones by judicious use of the *Open Space Trust Fund*. The need for additional field time, especially for our younger citizens, continues to grow and therefore we also acknowledge **more needs to be done**. We hereby petition the Scotch Plains Township Council and the Recreation Commission to continue the progress by: 1- Expand playing capabilities at those parks that have not yet experienced renovations such as **Brookside Park, Southside Ball Field, and the Vo-Tech fields**. 2- Establish artificial turf fields in order to increase time of play during the various sports seasons. 3- Use the \$172,000 Union County Matching Grant for field lighting which also will greatly increase time of play and give our athletes, both youth and adult, the experience and extra playing time that so many other communities now enjoy.
